Gemstone aromatherapy facials

Healing gems are a girl's new best friend. **Artemis Woman LLC** introduces the **Healing Gems™ Microdermabrasion System**, a home facial kit that fuses gemstones and aromatherapy. Gemstones and aromatherapy work together

“to gently buff away surface impurities, stimulate the senses and infuse underlying skin with a radiant glow.” The kit includes chakra-balancing Artemis Woman Gemstone Facial Scrubs in five varieties and a handheld, battery-operated surface exfoliation and deep pore-cleansing device.
