Artemis Woman Heel Smoother Pedicure Device

By Alicia | June 12, 2007

Ladies, if you want your man to give you foot massages, do a little prep work on them so he isn't scarred away. The [Artemis Woman Heel Smoother Pedicure Device](#) sold at Target will make your feet so smooth he will be asking to rub them every night (well at least we can hope!). It has a DuraCrystal power tip that smooths and rejuvenates all the rough spots on your feet including your toes, the top of your feet, and the roughest spot of all - your heels. The tips come in 2 different sizes, large and small, to accommodate any foot size and to work all the crevices in your feet. Watch your feet transform from abused to pampered. **\$17.99**
