October is Breast Cancer Awareness Month. Many fashion and beauty companies offer special items, with some of the proceeds earmarked to benefit breast-cancer organizations. Among them: Artemis Woman, which sells health and wellness products.

The company's co-founder Lisa Kable is an eight-year survivor of breast cancer. The wife and mother of two discovered she had the disease at 30. For the month, Artemis Woman offers the Pink Heel Smoother for \$25, discounted from \$29.99. Ten percent of the proceeds will go to Susan G. Komen for the Cure. In addition, the company donates 2 percent of its profits throughout the year to support alternative treatments and screenings for women's cancers.
