Remove Dry Skin From Your Feet With a Podiatrist-Approved Tool

May 25th, 2008 · No Comments · Beauty Tips, Foot Products

With summer comes sandals. Along with a good [pedicure](#), the other thing you need is for the fest of your feet to look smooth and feel soft.

The [Artemis Woman Heel Smoother](#) is a salon-grade, **Podiatrist approved [pedicure](#) tool** . It works like [microdermabrasion](#); in fact, uses the same [aluminum oxide crystals](#). The [Artemis Woman](#) has 2 different tips, one for the heel and ball of the foot, an a smaller one for toes and [toenails](#).

Plus it's **waterproof** ; take it in the shower with you and your feet are smoother is seconds!

You then smooth on nourishing [shea butter](#) with [essential oils](#) ([aromatherapy](#)), which is included.

Please do not use dangerous blades or harsh chemicals on your feet; use this doctor-approved tool instead.
