Gentle Heat Double Curl Lash Curler

We're all envious of naturally full-lashed women, but for those of us who need a little help in that arena, there's the [Gentle Heat Double Curl Lash Curler](#) (\$25). This brilliant battery-powered tool indicates heated readiness by changing color. Once warm, it gently curls lashes in two places: At the base and the tip. The result is gorgeously-framed eyes without any "ouch!"
