**Think Pink: Artemis Woman**

**What:** **Artemis Woman Heel Smoother**

**Why:** This nifty pedicure tool smoothes rough heels and removes dry skin quickly and easily. The crystal covered tip spins and rubs off hardened skin, but it does not hurt at all. Use the heel smoother at home to avoid the pedicurists' look of horror at your cracked heels and the resulting harsh treatment. The **Heel Smoother** comes with Topaz Foot Butter, which feels great after "sanding". Artemis Woman is a company created by women that donates 2% of its profits (year round!) to support alternative treatments for women's cancers. One of the company's founders is a breast cancer survivor, so they have special insight into the need for research on alternative treatments.

**Price:** \$29.99    **Find It:** [Target.com](http://Target.com)
